

**Renal Society of Australasia  
Journal:  
Instructions for Authors**

We are frequently requiring articles for publication and would welcome your contributions. All contributions are reviewed (blindly) by two members of the editorial panel who may recommend changes or amendments to manuscripts. Opinions expressed by contributors are not necessarily shared by the Renal Society of Australasia.

**Manuscripts** submitted for publication should be original and not have been published elsewhere. For copyright purposes all manuscripts must be accompanied by the following declaration:

*In respect of the Renal Society of Australasia Journal reviewing and editing the submission titled “....” the author hereby transfers, assigns and otherwise conveys all copyright ownership to the Renal Society of Australasia in the event that such work is published in the Renal Society of Australasia Journal.*

**All reviewing is performed electronically.** The manuscript should be typed and presented in Microsoft Word and saved in Word file. The manuscript should commence with a separate title page, with the title in capital letters and the author(s) name(s) as they appear in the article typed below in lower case. One forename for each author(s) will be printed in addition to the surname and any other initials.

Up to 5 **key words** should be provided

A short **abstract** of 100 to 250 words, summarizing the content of the article, should follow the title page on a separate page.

**Headings** should be appropriate to the nature of the paper. Research and clinical papers should follow usual academic convention, for example: Introduction, Method, Results, Discussion and Conclusion. Other papers may be subdivided as the author desires, the use of headings in such papers may be used to enhance readability. Major headings should be typed in lower case letters at the centre of the page and underlined. Minor headings should be typed in lower case letters

**Photographs** must be saved in either TIFF or JPG at 300dpi saved to 100%.

**Manuscripts** should be 1000-4000 words. Quality of material rather than arbitrary word length is of primary importance in all cases. Lengthy articles may be edited and/or serialised.

**Tables** should be double-spaced on separate sheets. A short descriptive title should appear above the table with a clear legend and footnotes (where necessary) suitably identifying below. Care should be taken to ensure that all units of measure are accurate and included.

**Illustrations** should be provided electronically. Electronic illustrations should be provided at 300 dpi saved to 100%. TIFF and JPG files will be accepted. Illustrations should be in black and white.

The accuracy of the **references** is the author's responsibility. The journal uses the referencing style of APA 5<sup>th</sup> which is similar to a modified Harvard Style. References in the text should be quoted by the author's name(s), and the year of publication. In the case of two authors, both names should be stated. If there are more than two authors, only the first author's name plus et al should be used. The reference list should be in alphabetical order. Reference to papers should include

all authors' surnames and initials, year of publication, full title of paper, journal name in full, first and last page numbers.

**Examples of referencing style are as follows:**

**Journal Publication:**

Lewis S., Cooper C., Cooper K., Bonner P., Parker K. & Frauman A. (1999): Research Priorities For Nephrology Nursing: American Nephrology Nurses' Association's Delphi Study. *ANNA Journal* **26**, 215-225.

**Book:**
