

Su Bahceci bio

Su Bahceci is a clinical dietitian working at Liverpool Hospital and previously St George Hospital, Sydney with extensive experience in a number of medical and surgical areas. Su is the senior renal supportive care dietitian and has been specialising for over five years in the renal acute inpatient and chronic outpatient areas. She has undertaken post-graduate training in renal nutrition. Su has a vested interest in research, particularly in nutrition support for malnourished renal patients and examining the role of intradialytic parenteral nutrition on nutritional outcomes.
