

Using Tools to Make Clinical Handover Safe: a Practical Workshop

Monday 24th November 2008

Stamford Plaza Adelaide

Registration: 9.00am—9.30am

Workshops: 9.30am-5.00pm

The Australian Commission on Safety and Quality in Health Care is hosting a one day workshop on clinical handover. This workshop is an opportunity to learn and share information about some of the new tools being developed by clinical handover projects from around Australia. These evidence-based clinical handover solutions are being developed for use across health care settings by teams participating in the National Clinical Handover Initiative.

Registration Fee: \$210
