We invite you to attend the Sanofi breakfast session on Wednesday 21 June 2017 from 7.30am-8.25am.

**Topic: Applying Self-management support in patients with renal disease**

There is a growing evidence base identifying self-management support as a key component of effective chronic disease management. The internationally recognised Chronic Care Model identifies responsibilities and partnerships for multilevel quality improvement in chronic condition prevention and management. It is known that people with chronic conditions or health risk factors and complex health needs often benefit from having a plan but can this be integrated with self-management and self-management support for people with renal disease? Patients make choices in how they manage their chronic condition/s and health professionals can collaborate with patients in supporting behaviour change and healthy lifestyle choices.

**Co-Presenters**

**Professor Malcolm Battersby**

Professor Malcolm Battersby is Clinical Director of Mental Health South Adelaide Local Health Network, Deputy Director of the Flinders Human Behaviour and Health Research Unit and Director of the Flinders Centre for Gambling Research. He is Professor of Psychiatry and Head of Psychiatry at Flinders University. He was awarded a Harkness Research Fellowship in 2003-2004, to study self-management chronic conditions with mentor Professor Ed Wagner and Michael Von Kroff.

Professor Battersby has led the development of the Flinders Program of chronic conditions management based on 20 years of research education and service delivery.

The Flinders Program is now provided nationally as part of the Coordinated Veterans’ Care program delivered through general practice and through the national Closing the Gap program to address Indigenous chronic disease.

Professor Battersby has led the implementation of the beyondblue NewAccess coaching program for anxiety and depression now recommended as part of the Australian federal government’s reform of primary care mental health services across Australia.
Ms Andrea Morello

Andrea Morello M Ed, Grad Dip Ed, BN, Dip App Sc (Nurs)
Health Services Manager, Flinders Program Education & Training, Lecturer in Chronic Condition Management
Ms Morello is a registered nurse with over 20 years’ experience as an academic within nursing coupled with online education design and delivery expertise. She has experience working across a variety of settings including public and private hospitals, universities, NGO and SBOs, and as an external consultant with previous roles at GPSA, consultancy work for AGPN, and now at Flinders Human Behaviour & Health Research Unit (FHBHRU). Andrea joined FHBHRU in 2012 to work in the development and delivery of the online training for the DVA Coordinated Veterans’ Care Program.
In addition to leading the education team for the Coordinated Veterans’ Care Program Andrea teaches within the post-graduate Chronic Disease Management course. An integral component of this teaching is recognition and valuing of the person’s own experience in how they manage their chronic condition/s and the importance of collaboration in client centred approaches to care and supporting behaviour change.
Andrea also manages the FHBHRU online learning portal which provides access to flexible, self-paced learning for health professionals which meets CPD requirements for relevant professional organisations (ACN, ACRRM, APNA and RACGP). The use of technology to support the ongoing professional development needs of health professionals as we continue to balance workplace changes in role requirements and expectations, is an area of particular interest to Andrea.

This event is open to full conference delegates and Wednesday day delegates however you must register as spaces are limited. Please RSVP by ticking the Sanofi breakfast workshop registration box during your online registration for the RSA conference or contact the organisers by phone 1300 941 480 or email conference@renalsociety.org
