

Renal Society of Australasia

Vascular Access Workshop - Alice Springs

Designed for nurses and health professionals working in haemodialysis or with an interest in vascular access, this half-day workshop will cover.

- Vascular access assessment
- Practical hands-on ultrasound scanning techniques
- Real time ultrasound-guided cannulation
- Tips for dialysis access care and management

Learn and apply these vital skills to improve the care of people with renal disease.

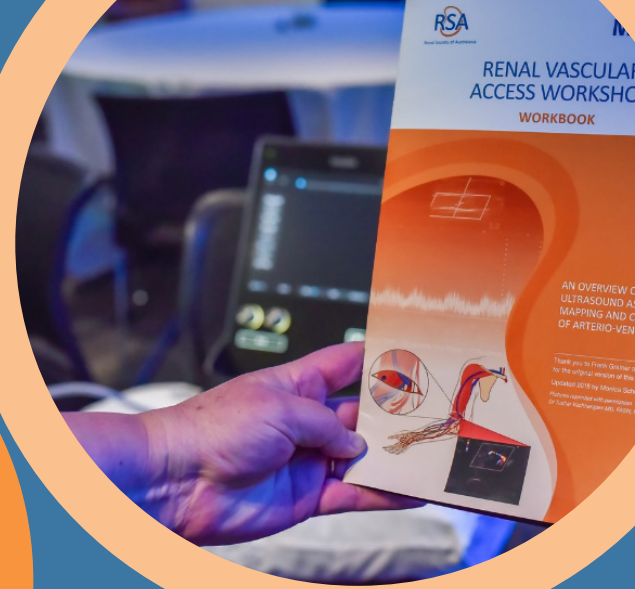

This workshop contains upto 4 hours of pre-learning online modules which enables delegates to get straight into the practical on-site learning with facilitators.
